

Pitch

Mobile & Wall Mounted Markerboard

Claridge®

The inspiration for the Pitch Mobile grew from the aesthetic of free-standing pivot mirrors. This lighter scale, residential form lends itself well to the interiors we see and are designing for. Available in one size and two distinctively different color palettes. The slightly pitched surface creates a comfortable and easier writing experience.

- Slightly pitched double-sided mobile surface creates an elegant obelisk side profile.
- A slight angle of the board's writing surface makes the mobile board more approachable and provides a little more comfort to the user.
- A storage cubby and stylish designer leather pull strap are integrated along both sides of the mobile.
- Comes with two (2) locking and two (2) non-locking Hubless Casters.
