

Venue

Can a whiteboard or vertical panel system be seamlessly integrated into the evolving workplace of today? Can that same system define space and provide visual privacy? Venue seamlessly integrates into the open plan, collaborative team space and the built environment with its slim architecture and mindful details. Venue enhances a variety of aesthetics with a vast library of color finishes, laminates, and textiles to blend in with any aesthetic. It is Venue's timeless design that allows this adaptive visual communications board to work with an existing conference room, collaboration space or a new system within the open plan.

PRODUCT DESIGN NOTES

- Flexible and adaptive room dividers provide a visual border to define space not only within the open environment but within systems themselves
- Create a boundary of space to define areas of collaboration and areas of concentration
- Divide personal space between benching seats and workstation clusters/packs
- Integrated textiles and perforated acoustic panels add another layer of privacy beyond the visual
- V-Leg Mobile: upright design with board surface starting approximately 18" from the floor, slightly more approachable
- T-Leg Mobile: lower profile design with board surface starting approximately 10" from the floor, convenient nesting
- Wall-mounted Boards: available in 8 standard sizes, custom sizes available
