

51EZ and 74EZ Map and Display Rail

INSTALLATION INSTRUCTIONS

15/16"

51EZ Map and Display Rail

1. Typically shipped with the insert loose. Set cork insert aside.
2. Using a drill bit, drill holes through the center of the rail starting 12" in from the end of the rail. Continue drilling holes every 12", stopping 12" in from the opposite end of the rail.
3. Determine the height that the rail is to be mounted. Mount rail to wall using appropriate fasteners for wall type.
4. Cork insert is now ready to be installed. Starting at one end of the rail press the cork insert into position, using a small seam roller if necessary.
5. If Map Hooks, Roller Brackets or other accessories are furnished, they should now be installed by sliding over the end of the rail lips onto the rail.
6. End stops are available. If you have ordered end stops, they are installed as follows: No. 51ES slides over the ends of the rail lips and the return leg butts against the end of the rail. When in position, drill through existing hole in end stop and then through rail into the wall.

2"

74EZ Map and Display Rail

1. Typically shipped with the insert loose. Set cork insert aside.
2. Using a drill bit, drill holes through the center of the rail starting 12" in from the end of the rail. Continue drilling holes every 12", stopping 12" in from the opposite end of the rail.
3. Determine the height that the rail is to be mounted. Mount rail to wall using appropriate fasteners for wall type.
4. Cork insert is now ready to be installed. Starting at one end of the rail slide the cork insert under the rail lips into position.
5. If Map Hooks, Roller Brackets or other accessories are furnished, they should now be installed by sliding over the end of the rail lips onto the rail.
6. End stops are available. If you have ordered end stops, they are installed as follows: No. 74ES slides over the ends of the rail lips and the return leg butts against the end of the rail. When in position, drill through existing hole in end stop and then through rail into the wall.
